

Central Pa Youth Ministries

Summer Camp 2016 is now history. Can you imagine, this was the 42 year of summer camps this organization has run. It was a very good week of camp. No one was taken to the hospital. We had no discipline problems. One little gal came done with the chicken pox. Poor kid, but by the end of the week she was up and going strong. And it rained one day, not a good way to spend time at the beach.

Still, God's Spirit worded mightily. Every evening our speaker gave an alter call. At no time did less than 8 teens respond and one night more than 30 came forward. We are praising God for all He did, and again thank you for helping to make this possible.

One little story. Our camp speaker spends the entire year speaking to teens at church camps and to church groups. We told him that our group is not churched, many have never owned or have ever read a Bible. By Wednesday night our speaker came to me and said, "I had no idea what you meant that these teens are un-churched. They are more un-churched than I have ever encountered." That is the mission of CPaYM, to take the Gospel to the un-churched teens of Central PA.

Thank you for helping us!!
